Your Quest . . . to destroy the enemy Battlestar that threatens all other known life forms!!

Blinky, your onboard computer, will guide you through the quest with messages on the screen. Each alien has a shield of a certain strength which you must break through to kill it. But the more often you fire, the weaker your laser bolts get . . . so you must target your shots carefully without exhausting your laser reserves. If an alien comes close, use your sheild to protect your ship . . . they will bounce off, sustaining damage.
